# COAST

## Inspired design, grounded in nature.

Nature-inspired hues, light woods and organic textures create a home that feels fresh, open and naturally composed. Clean, contemporary details bring clarity and comfort to every room.

A personalized home allows you to choose from key features like your cabinets, wall tiles, hardware, and more.

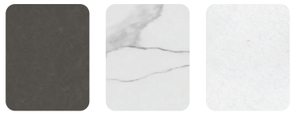

An airy palette and warm, tactile details bring a refreshing sense of ease to every space. The result is a contemporary retreat with space to recharge, reconnect and feel completely at home.

Personalize your home with thoughtfully selected options, guided by a Daytona Design Expert.
